

AMICKBROWN

Amick Brown is an IT Solutions and Consulting Company Specializing in Cloud Technologies, SAP and Business Intelligence.

Our technology expertise and commitment to quality at a competitive price brings efficiency to your business. We serve clients across United States. We are headquartered in San Ramon, CA with additional offices in Sacramento, CA, Atlanta, GA and Bangalore, India.

Cloud Services

Amick Brown offers hybrid cloud services that help organizations define, execute and manage hybrid cloud transformation. Our expertise in data center operations, private cloud deployments (OpenStack), public cloud migrations (AWS & Azure) and DevOps gives us the ability to provide sensible cloud adoption and transformation.

ERP/SAP & Business Intelligence Consulting

Amick Brown provides a full range of SAP consultancy including implementation, integration, upgrade and post go-live support. We also provide On-Demand Consultant Support Services and staffing to meet client needs.

We provide services across the BI spectrum from Strategy and Roadmaps to data warehousing, operational reporting, predictive analytics, data visualization and dashboards.

WHY AMICK BROWN?

Proven Performance

- ▶ We provide services to our customers that result in measurable benefit and success.
- ▶ The Amick Brown team has delivered successfully on projects for Fortune 500, mid-sized companies, and Public Sector.
- ▶ We have architected and implemented complex BI Solutions for large user bases.
- ▶ The Amick Brown leadership team as well as our consultant staff has extensive experience supporting integrated and multi-technology 24 x 7 production environments.
- ▶ We offer a proven track record of building hybrid cloud architectures, implementing DevOps to drive business agility and enabling digital transformation.

Proven Team

- ▶ Our commitment to quality has resulted in highly satisfied customers that provide 100% positive reference.
- ▶ Amick Brown experience includes Private Sector, Government and Public Sector with domain and technical knowledge.
- ▶ We provide extensive hands-on experience in architecture and deployment of multi-cloud environments across different verticals ranging from startups to enterprises.

Proven Innovation

- ▶ AccessOne BI Security solution provides powerful ad hoc reporting to encourage user collaboration - all in Real-Time. Implement reporting access control based on roles within organization, position or span of control.
- ▶ Winning Analytics is a powerful and iterative strategy service for BI which defines how Analytics and Reporting will drive business goal attainment within your organization.
